LOCAL WOMEN OWNED SMALL BUSINESS AWARDED \$14M DOLLAR CONTRACT

Melbourne, Florida, May 24, 2016—Kegman Inc., a Melbourne Florida based Women Owned and Veteran Owned small business, has been awarded a \$14 million contract to support the Air Force Technical Applications Center (AFTAC), Nuclear Treaty Monitoring Directorate, Patrick AFB, FL. The company will provide Geophysical Scientific, Engineering, and Technical services on the Management, Engineering & Research Concepts - Geophysical (MERC-G) contract FA7022-16-C-0006. The Kegman team, which includes Honeywell Technology Solutions Inc. and the Florida Institute of Technology, will augment AFTAC's organic technical capabilities to support the United States Atomic Energy Detection System (USAEDS), helping to ensure Nuclear Detection System mission readiness and to support the Research and Development (R&D) of new proliferation detection technologies to enhance or assist treaty verification to limit the proliferation of weapons of mass destruction.

Kegman will perform research, studies and analyses in geophysical sciences, provide engineering services related to all aspects of acquisition, Operations and Maintenance (O&M), and sustainment for existing fielded and new systems, provide program/project management and acquisition support, and provide key research and operational support to the United States National Data Center (US NDC), National Technical Nuclear Forensics Program, and the United States International Monitoring System. Kegman Inc. will begin work on the in January 2017 with an expected completion date in December 2020.

“Our team is thrilled to extend our support to AFTAC missions that provide national authorities with critical scientific measurements used to monitor nuclear treaty compliance,” said Susan Glasgow, Kegman President and Chief Executive Officer. “We are confident we will deliver enhancements that significantly improve the development of new technologies, processes, and procedures critical to preserving our nation’s security.” Kegman, as the small business prime MERC-G contractor, brings not only a capable company that unequivocally recognizes AFTAC’s historic legacy and mission in treaty monitoring but also a corporate management staff that has over three decades of experience supporting AFTAC’s Nuclear Treaty Monitoring Mission.

Kegman is located at 1135 W. NASA Blvd, Suite 100, Melbourne, Florida, in Florida Tech’s Research Park. If you would like more information about Kegman, please visit their website at www.kegmaninc.com or email them at operations@kegmaninc.com.
