

State of Florida, S-Corporation

DUNS: 018170014 | CAGE Code: 1TRR6

3rd Party Certified EDWOSB/VOSB

Competencies

Program Management
"Applying innovative management tools to mitigate Cost-Performance-Schedule risks."

Systems Engineering and Technical Assistance (SETA)

Research and Development
"Leveraging relationships with Academia."

Engineering & Installation
"Adapting sensor systems to 3rd world infrastructure."

Operations & Maintenance
"Decades of experience supporting legacy (analog) and modern (digital) systems."

Integrated Logistics Support
"Supporting your system throughout its life-cycle."

Differentiators

- We prepare comprehensive Project Management Plans, Communications Plans, Quality Plans, Risk Mitigation Plans, to plan-execute-and control our work.
- We provide our clients with access to our SharePoint Portal that smartly contains current and complete project records, documents, presentations, and schedules.
- Geophysical Sciences, Engineering, and Technical Support, Financial Program Analysis and Performance Measurement; Manpower, Personnel and Training Analysis
- Technical Operations Analysis, CNC/Fabrication, Systems Integration, and Mechanical Engineering.
- Meteorological systems and associated analysis tools.
- Seismology (instrumentation, digitizers, telemetry, and processing & recording).
- Advanced Electromagnetic System; Test and Evaluation at US Test Ranges.
- Expert integrators of sensors, infrastructure, and data systems adaptable to your mission requirements: Seismic | Infrasonic | Hydroacoustic | RF | EM | EO/IR
- COTS Systems Integration; Fix-Wing, UAV and Unattended Ground Platforms.
- Meteorological (Weather) Systems (Doppler Radar, Lightning, Mesonet, Wind).
- Geophysical Systems (Seismic, Infrasonic, Hydroacoustic).
- Space Launch Operations, Ground Processing Systems (High Resolution/High Speed Video, CCTV, Public Alarm and Warning, Network Infrastructure).
- We are experienced at preparing, coordinating, and tracking large shipments destined for Asia, Africa, South America, Europe, or throughout the US.
- We have substantial ILS experience supporting diverse mission operations.

Business Demographics

- Annual revenue ~\$4.2M—29 FTEs.
- Passed DCAA Audit—May 2014; DFARS 209.104-1(e) & 242.7501—we can do cost type contracting
- Quality Management System ISO 9001:2008 certified – updating to 9001:2015
- Robust Industrial Security Program—Facility Security Clearance—employees with TS/SCI/CI tickets
- We use [LinkedIn Recruiter](#) to recruit talent— over 55% of the Fortune 100 use this tool—it yields results!

Experience Supporting Diverse Government Missions

- Air Force Technical Applications Center (AFTAC), US Atomic Energy Detection Systems SETA
- Office of Development and Engineering, Scientific/Engineering Services
- National Aeronautics and Space Administration (NASA) Engineering and Technical Services
- 45th Space Wing (Atlas/Delta Launch through the United Launch Alliance) Launch Support Systems
- Department of Labor (DOL), Mine Safety and Health Administration (MSHA) Special Sensor Integration

Core NAICS Classifications:

- **541330**—Engineering Services • **541360**—Geophysical Surveying and Mapping Services • **541511-13**—Computer Systems
- **561611**—Administrative Management and General Management Consulting Services • **541614**—Process, Physical Distribution, and Logistics Consulting Services • **541690**—Other Scientific and Consulting Services • **541712**—Research and Development in Physical Sciences • **541990**—All Other Professional, Scientific Technical Services

Sensor to Analyst and all Things in Between
