# Fact Sheet

Susan Glasgow, President CEO, [susan.glasgow@kegmanINC.com](mailto:susan.glasgow@kegmanINC.com)

## State of Florida, S-Corporation

DUNS: 018170014 | CAGE Code: 1TRR6

### Competencies

- Program Management**  
*"Applying innovative management tools to mitigate Cost-Performance-Schedule risks."*
- Systems Engineering and Technical Assistance (SETA)**
- Research and Development**  
*"Leveraging relationships with Academia."*
- Engineering & Installation**  
*"Adapting sensor systems to 3rd world infrastructure."*
- Operations & Maintenance**  
*"Decades of experience supporting legacy (analog) and modern (digital) systems."*
- Integrated Logistics Support**  
*"Supporting your system throughout its life-cycle."*

### Differentiators

- We prepare comprehensive Project Management Plans, Communications Plans, Quality Plans, Risk Mitigation Plans, to plan-execute-and control our work.
- We leverage SharePoint to implement principles of effective project management-- smartly contains complete project records, documents, presentations, and schedules
- Sciences, Engineering, and Technical Support, Financial Program Analysis and Performance Measurement; Manpower, Personnel and Training Analysis
- Technical Operations Analysis, CNC/Fabrication, Systems Integration
- Meteorological systems and associated analysis tools.
- Seismology (instrumentation, digitizers, telemetry, and processing & recording).
- Advanced Electromagnetic System; Test and Evaluation at US Test Ranges.
- Expert integrators of sensors, infrastructure, and data systems adaptable to your mission requirements: Seismic | Infrasonic | Hydroacoustic | RF | EM | EO/IR
- COTS Systems Integration; Fix-Wing, UAV and Unattended Ground Platforms.
- Scientific Systems (Seismic, Infrasonic, Hydroacoustic, RF, EO/IR, EM, Laser).
- Meteorological (Weather) Systems (Doppler Radar, Lightning, Mesonet, Wind).
- Space Launch Operations, Ground Processing Systems (High Resolution/High Speed Video, CCTV, Public Alarm and Warning, Network Infrastructure).
- We are experienced at preparing, coordinating, and tracking large shipments destined for Asia, Africa, South America, Europe, or throughout the US.
- We have substantial ILS experience supporting diverse mission operations.

### Business Demographics

- Annual revenue ~\$4.5M—33 FTEs
- Quality Management System ISO 9001:2015 certified
- Robust Industrial Security Program—Facility Security Clearance—employees with TS/SCI/CI tickets
- We use [LinkedIn Recruiter](#) to recruit talent— our approach yields results!

### Experience Supporting Diverse Government Missions

- Air Force Technical Applications Center (AFTAC), US Atomic Energy Detection Systems SETA
- Defense Intelligence Agency(DIA), Office of Development and Engineering, Scientific/Engineering Services
- National Aeronautics and Space Administration (NASA) Engineering and Technical Services
- 45<sup>th</sup> Space Wing (Atlas/Delta Launch through the United Launch Alliance) Launch Support Systems
- Department of Labor (DOL), Mine Safety and Health Administration (MSHA) Special Sensor Integration

### Core NAICS Classifications:

Primary NAICS **541690**—Other Scientific and Consulting Services • **561611**—Administrative Management and General Management Consulting Services • **541330**—Engineering Services • **541360**—Geophysical Surveying and Mapping Services • **541511-13**—Computer Systems • **541614**—Process, Physical Distribution, and Logistics Consulting Services • **541712**—Research and Development in Physical Sciences • **541990**—All Other Professional, Scientific Technical Services

### Areas Seeking Mentorship Support

- Enhance Financial Performance – Systems and Process Improvement, Cost Accounting System enhancement
- Contracting – Legal Sufficiency Reviews for NDAs, TAs, Subcontracts, Consulting Agreements, Pricing
- Business Development – Use of BD Tools, Proposals Development Resources, New Customer Introductions

*Sensor to Analyst and all Things in Between*
